CERTIFICATIONS

December marks the end of the rainy season and the beginning of the dry season in Guatemala. Noted this, Industria Chiquibul sent a team of Biologists to the areas surrounding the plantations during the second week of this month. These visits are planned twice a year to analyze the ecological environment in the area. During this past journey, four biological species were studied, including: daylight butterflies, birds, mammals, and vegetation, living in four different soil conditions. These visits are part of Industria Chiquibul's commitment to the environment and the thrive to preserve the biodiversity in the tropical area surrounding its plantation.
