CERTIFICATIONS

As part of Industria Chiquibul's reforestation program and commitment to the environment, during the month of January about 1000 trees were planted in different areas around the plantation. These reforestation days, were also part of our school programs to teach students the importance of persevering environment.

COMMUNITY RELATIONS

Industria Chiquibul celebrated its first 2023 Medical Mission this past saturday, January 28th. In the thrive to provide medical care access to surrounding communities, Industria Chiquibul has committed and designed medical journeys throughout the year to brind doctors and healthcare specialits, as well as medicine donations of the areas surrounding Alta Verapaz.

This past saturday, the first 2023 mission took place in Tezulutlan I, Peten, inside a local Health care facility. 10 doctors from specialties including general medicine, pediatrics, gynecology, general surgery, were brought to provide free medical access, follow ups and necessary prescriptions to men, women and children. Around 400 cases were seen, in which children account for more than 50% of teh attendees.

Finished the consultations, Industria Chiquibul made a significant donation of medicines to respond to the prescriptions provided by doctors and medical staff.

CORPORATE NEWS

The start of a new year brings new opportunities to give back to our communities. The year 2023 will mark a change towards Industria Chiquibul's thrive to be a more Sustainable Palm Oil producer and exporter in Guatemala.

Industria Chiquibul's presented its 2023 Sustainability plan based in five main pillars in accordance to the United Nations Sustainable Development Goals, these are:

- Health and Wellbeing
- Gender Equality
- Quality of Education
- Environment & Ecosystems
- Zero Hunger

To achieve this, four new programs are getting introduced involving food security, women & nourishing infants, entrepreneurship assistance for self-subsistence and daycare facilities for collaborators and surrounding communities' children.
