

## People

Our employee annual soccer league kicked off during this past month, reinstating our efforts to build good teamwork and employees’ physical health. Teams from multiple areas, including plant and field, are currently competing for the annual Chiquibul tournament, Industria Chiquibul promotes recreational activities and rewarding the first places and best players.

Following our Occupational Safety and Health guidelines and procedures, during the month of June multiple fire extinguisher trainings were provided for our plant personnel. Our regular OSH training program aims to provide our people and workers with preventive measures to assure their safety in the work field.

## Planet

During June, more than 1500 trees were planted as part of our constant reforestation incentives. Multiple reforestation journeys are held throughout the year as part of our educational program “Somos Conservación.” Learn more about our NDPE Policy and Reforestation incentives by visiting our [website](#).

Over the past month, different recycling journeys and incentives were held across our plantation. Waste collection and classification programs and tire usages are part of the incentives we take to promote good environmental practices in our plantation.

## Prosperity

At Industria Chiquibul we are committed to the Prosperity of our communities and people, contributing to the maintenance of municipal and internal roads. During June more than 30 kms or roads were given maintenance. In alliance with the Municipality of Chisec, we have benefited more than 7 communities in the Tierra Blanca 5000 region, through infrastructure and construction programs.

Through this alliance, we contribute with infrastructure and support the local economy, facilitating connectivity and commerce in the region. Learn more about this project and testimonies from local authorities visiting our [YouTube channel](#).
